SYNOPSIS:

For thousands of years, Cupid's brother, Ernie has been sending arrows to the heart of people, creating the ultimate love connections just like his famous brother. Ernie has grown bored of the same love connections and decides to leap down to earth and take on a child human form along with his trusted dog and best friend, Cerbie.

Cerbie & Ernie's magical adventure leads them under the investigative nose of Detective Myers. Detective Myers can't find any history of Ernie and is puzzled by his sudden appearance and launches an investigation on Ernie & Cerbie. With no home of record and no parents, Detective Myers takes Ernie & Cerbie to the city's Orphanage. When Ernie & Cerbie arrive, Ernie now finds a new beginning for his magical arrows.
