

MYRTLE BEACH'S DRUG EPIDEMIC

A new Documentary program is looking for Myrtle Beach Families that currently have a loved one struggling with an addiction to heroin and/or opioids.

Is someone in your family or friend struggling with a heroin or pain killer addiction? Are you worried that they are losing the battle to drugs?

Please email us your name and contact info, the person in your family who is currently addicted, their age, and a little about their situation at SCDrugdoc@gmail.com.

We will call you to learn more. Thank you!
